## **FOREWORD**

The Government of Kenya is committed to ensuring that policy objectives for Education, Training and Research meet the aspirations of the Constitution of Kenya 2010, the Kenya Vision 2030, National Curriculum Policy 2019, the United Nations Sustainable Development Goals (SDGs) and the Regional and Global conventions to which Kenya is a signatory. Towards achieving the mission of Basic Education, the Ministry of Education (MoE) has successfully and progressively rolled out the implementation of the Competency Based Curriculum (CBC) at Pre-Primary, Primary and Junior School levels.

The implementation of Competency Based Curriculum involves monitoring and evaluation to determine its success. After the five-year implementation cycle, a summative evaluation of the primary education cycle was undertaken to establish the achievement of learning outcomes as envisaged in the Basic Education Curriculum Framework. The Government of Kenya constituted a Presidential working Party on Education Reforms (PWPER) in 2022 to address salient issues affecting the education sector. PWPER made far reaching recommendations for basic education that necessitated curriculum review. The recommendations of the PWPER, monitoring reports, summative evaluation, feedback from curriculum implementers and other stakeholders led to rationalisation and review of the basic education curriculum.

The reviewed Grade 3 English Language curriculum designs for learners with Physical Impairment build on competencies attained by learners at Grade 2. Emphasis at this grade is the development of basic literacy, numeracy and skills for interaction with the environment.

The curriculum designs present National Goals of Education, essence statements, general and specific expected learning outcomes for the subjects as well as strands and sub strands. The designs also outline suggested learning experiences, key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values, and assessment rubric.

It is my hope that all Government agencies and other stakeholders in Education will use the designs to plan for effective and efficient implementation of the CBC.

**HON. EZEKIEL OMBAKI MACHOGU, CBS**  
**CABINET SECRETARY,**  
**MINISTRY OF EDUCATION**

## **PREFACE**

The Ministry of Education (MoE) nationally implemented Competency Based Curriculum (CBC) in 2019. Grade one is the first grade of Primary education level while Grade 6 is the final grade of the level in the reformed education structure.

The reviewed Grade 3 Creative Activities Curriculum furthers implementation of the CBC from Grade 1 in Primary level. The curriculum provides opportunities for learners to focus in a field of their choice to form a foundation for further education and training and/or gain employable skills. This is very critical in the realisation of the Vision and Mission of the on-going curriculum reforms as enshrined in the Sessional Paper No. I of 2019 whose title is: Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development in Kenya. The Sessional Paper explains the shift from a content-focused curriculum to a focus on **nurturing every learner's potential**.

Therefore, the Grade 3 curriculum designs for learners with Physical Impairment are intended to enhance the learners' development in the CBC core competencies, namely: Communication and Collaboration, Critical Thinking and Problem Solving, Creativity and Imagination, Citizenship, Digital Literacy, learning to Learn and Self-efficacy.

The curriculum designs provide suggestions for interactive and differentiated learning experiences linked to the various sub strands and the other aspects of the CBC. They also offer several suggested learning resources and a variety of assessment techniques. It is expected that the designs will guide teachers to effectively facilitate learners to attain the expected learning outcomes for Grade 3 and prepare them for smooth transition to Grade 4. Furthermore, it is my hope that teachers will use the adapted designs to make learning interesting, exciting and enjoyable.

**DR. BELIO KIPSANG', CBS  
PRINCIPAL SECRETARY  
STATE DEPARTMENT FOR BASIC EDUCATION  
MINISTRY OF EDUCATION**

## **ACKNOWLEDGEMENT**

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop and review (SNE adapt) curricula and curriculum support materials for basic and tertiary education and training. The curriculum development process for any level of education involves thorough research, international benchmarking and robust stakeholder engagement. Through a systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the Basic Education Curriculum Framework (BECF) 2017, that responds to the demands of the 21<sup>st</sup> Century and the aspirations captured in the Constitution of Kenya 2010, the Kenya Vision 2030, East African Community Protocol, International Bureau of Education Guidelines and the United Nations Sustainable Development Goals (SDGs).

KICD receives its funding from the Government of Kenya to facilitate successful achievement of the stipulated mandate and implementation of the Government and Sector (Ministry of Education (MoE) plans. The Institute also receives support from development partners targeting specific programmes. The revised Grade 2 curriculum designs for learners with Physical Impairment were developed and adapted with the support of the World Bank through the Kenya Primary Education Equity in Learning Programme (KPEELP); a project coordinated by MoE. Therefore, the Institute is very grateful for the support of the Government of Kenya, through the MoE and the development partners for policy, resource and logistical support. Specifically, special thanks to the Cabinet Secretary-MoE and the Principal Secretary – State Department of Basic Education,

I also wish to acknowledge the KICD curriculum developers and other staff, all teachers, educators who took part as panelists; the Semi-Autonomous Government Agencies (SAGAs) and representatives of various stakeholders for their roles in the development and adaptation of the Grade 2 curriculum designs for learners with Physical Impairment. In relation to this, I acknowledge the support of the Chief Executive Officers of the Teachers Service Commission (TSC) and the Kenya National Examinations Council (KNEC) for their support in the process of developing and adapting these designs. Finally, I am very grateful to the KICD Council Chairperson and other members of the Council for very consistent guidance in the process.

I assure all teachers, parents and other stakeholders that this curriculum design will effectively guide the implementation of the CBC at Grade 2 and preparation of learners with Physical Impairment for transition to Grade 3.

**PROF. CHARLES O. ONG'ONDO, PhD, MBS**  
**DIRECTOR/CHIEF EXECUTIVE OFFICER**  
**KENYA INSTITUTE OF CURRICULUM DEVELOPMENT**

## **NATIONAL GOALS OF EDUCATION**

### **1. Foster nationalism, patriotism, and promote national unity**

Kenya's people belong to different communities, races and religions and should be able to live and interact as one people. Education should enable the learner acquire a sense of nationhood and patriotism. It should also promote peace and mutual respect for harmonious co-existence.

### **2. Promote social, economic, technological and industrial needs for national development**

Education should prepare the learner to play an effective and productive role in the nation.

#### **a) Social Needs**

Education should instil social and adaptive skills in the learner for effective participation in community and national development.

#### **b) Economic Needs**

Education should prepare a learner with requisite competences that support a modern and independent growing economy. This should translate into high standards of living for every individual.

#### **c) Technological and Industrial Needs**

Education should provide the learner with necessary competences for technological and industrial development in tandem with changing global trends.

### **3. Promote individual development and self-fulfilment**

Education should provide opportunities for the learner to develop to the fullest potential. This includes development of one's interests, talents and character for positive contribution to the society.

### **4. Promote sound moral and religious values**

Education should promote acquisition of national values as enshrined in the Constitution. It should be geared towards developing a self-disciplined and ethical citizen with sound moral and religious values.

**5. Promote social equity and responsibility**

Education should promote social equity and responsibility. It should provide inclusive and equitable access to quality and differentiated education; including learners with special educational needs and disabilities. Education should also provide the learner with opportunities for shared responsibility and accountability through service learning.

**6. Promote respect for and development of Kenya's rich and varied cultures**

Education should instil in the learner appreciation of Kenya's rich and diverse cultural heritage. The learner should value own and respect other people's culture as well as embrace positive cultural practices in a dynamic society.

**7. Promote international consciousness and foster positive attitudes towards other nations**

Kenya is part of the interdependent network of diverse peoples and nations. Education should therefore enable the learner to respect, appreciate and participate in the opportunities within the international community. Education should also facilitate the learner to operate within the international community with full knowledge of the obligations, responsibilities, rights and benefits that this membership entails.

**8. Good health and environmental protection**

Education should inculcate in the learner the value of physical and psychological well-being for self and others. It should promote environmental preservation and conservation, including animal welfare for sustainable development.

## LESSON ALLOCATION FOR LOWER PRIMARY

S/ No.	Learning Area	No. of Lessons
1	Mathematical Activities for Learners with Visual Impairment	5
2	English Language Activities for Learners with Visual Impairment	5
3	Environmental Activities for Learners with Visual Impairment	4
4	Creative Activities for Learners with Visual Impairment	7
5	Religious Education Activities	3
6	Kiswahili language activities for Learners with Visual Impairment	4
7	Braille Literacy Activities	2
8.	Pastoral/ Religious Instruction Programme	1
	<b>Total</b>	<b>31</b>

## GENERAL LEARNING OUTCOMES FOR PRIMARY EDUCATION

By the end of the Primary Education, the learner should be able to:

- a) Communicate appropriately using verbal and or non-verbal modes in a variety of contexts.
- b) Demonstrate mastery of number concepts to solve problems in day to day life
- c) Demonstrate social skills, moral and religious values for positive contribution to society
- d) Develop one's interests and talents for personal fulfilment
- e) Make informed decisions as local and global citizens of a diverse, democratic society in an interdependent world.
- f) Explore, manipulate, manage and conserve the environment effectively for learning and sustainable development
- g) Acquire digital literacy skills for learning and enjoyment.
- h) Appreciate the country's rich, diverse cultural heritage for harmonious living

## **ESSENCE STATEMENT**

Braille skills literacy is a major prerequisite for learning to learners with blindness. The skill will enable the learner to perform well in education, information, trade, diplomacy, social networking, science, technology, the internet, and travel. It is internationally used as the main commonly learnt skills for learners with blindness in today's world. In Kenya, Braille skills literacy is learnt as the medium of instruction all grades. Hence, a solid foundation in the mastery of Braille skills must be laid in Early Years Education. This will not only enhance learning in Middle School but will also prepare the learner with blindness for future engagements in the national and international arenas. Consequently, the learner with blindness must be exposed to targeted interactive tasks in braille skills literacy activities. Additionally, the learner with blindness will be able to progressively demonstrate the expected range of competencies in braille skills. A deliberate focus on each of the braille skills literacy is expected even though the interrelatedness between the various language skills must be taken into account.

## **GENERAL LEARNING OUTCOMES**

By the end of Early Years Education, the learner with visual impairment should be able to:

- a) listen and respond appropriately to relevant information in a variety of contexts,
- b) express self-confidently using braille writing and reading materials
- c) read and write English braille notations fluently and accurately,
- d) read and write mathematics braille notations fluently and accurately,
- e) write simple sentences using Kiswahili braille notations fluently and accurately.

## **STRANDS**

- Braille Writing Equipment and Materials
- Braille Reading Skills
- Braille Writing Skills
- English Braille Notation
- Mathematics Braille Notation
- Braille ya Kiswahili

## **SUB STRANDS**

### **Braille Writing Equipment and Materials**

1. Assistive devices

### **Braille Reading Skills**

1. Simple tactile maps and diagrams
2. Tracing patterns
3. Braille Writing Skills

### **English Braille Notation**

1. Braille formatting
2. Lower group signs.
3. Lower word signs.

### **Mathematics Braille Notation**

1. Numbers in braille
2. Operation Signs
3. Simple fractions

### **Breli ya Kiswahili**

1. Maneno yanayosimamiwa na mikato ya seli moja

**GRADE 3 (40 minutes per lesson)**

<b>hSTRAND S</b>	<b>SUB STRAND</b>	<b>SPECIFIC LEARNING OUTCOMES</b>	<b>SUGGESTED LEARNING EXPERIENCES</b>	<b>SUGGESTED KEY INQUIRY QUESTIONS</b>
1.0 Braille Writing Equipment and Materials	1.1 Assistive devices (5 lessons)	By the end of the lesson, the learners should be able to: a) identify assistive devices for reading and writing braille, b) use assistive devices in reading and writing braille, c) practice good care and storage of the assistive devices after use, d) enjoy using assistive devices in learning.	<ul style="list-style-type: none"> <li>• Learner identifies assistive devices such as, computer with appropriate software, Dot mini, Talking calculator, Smart phones, Smart brailers and Orbit reader</li> <li>• Learner is oriented on the use of assistive devices such as computer with appropriate software, Dot mini, Talking calculator, Smart phones, Smart brailers and Orbit reader phones and smart brailers.</li> <li>• In pairs or groups learners practice the use of assistive devices for reading and writing.</li> <li>• Learner uses the assistive devices safely and how to take care of them to prevent accidents on self and others.</li> <li>• Learner stores the assistive devices to prevent breakage and loss.</li> </ul>	<ol style="list-style-type: none"> <li>1. Why do we use assistive devices during lesson?</li> <li>2. How do we use assistive devices to read and write braille?</li> </ol>
<p><b>Core competences to be developed:</b> Communication and collaboration. This could be achieved as learners work in pairs and in groups while using digital devices Creativity and innovations: This could be developed as learners manipulate the devices to identify different functions.</p>				
<p><b>Values:</b> Responsibility is nurtured as learners take care and store digital devices in safe places after use.</p>				

Respect is nurtured as learners use digital devices for the intended use and safely.

**Pertinent and Contemporary Issues:**

]Environmental conservation is enhanced as learners use devices to read and write instead of papers and books

**Link to other Learning Areas:** Reading and writing braille using digital devices is linked to reading and writing braille in English.

**Suggested learning resources**

- computer with appropriate software,
- Dot mini
- Talking calculator,
- Smart phones
- Smart brailers.
- Orbit reader

STRANDS	SUB STRAND	SPECIFIC LEARNING OUTCOMES	SUGGESTED EXPERIENCES	SUGGESTED KEY INQUIRY QUESTIONS
2.0 Braille Reading Skills	2.1 Simple tactile maps and diagrams (5 lessons)	By the end of the lesson, the learners should be able to: a) identify the different features in a tactile map b) interpret tactile maps and diagrams, c) practice good care and storage of simple tactile maps and diagrams after use	<ul style="list-style-type: none"> <li>• Learner freely explores a tactile map and identify various features</li> <li>• Learners is guided to read simple tactile lines, maps and diagrams</li> <li>• In pairs or groups Learners interpret, simple tactile maps, and diagrams</li> <li>• Learner appropriates care and storage of simple tactile maps and diagrams</li> </ul>	<ol style="list-style-type: none"> <li>1. <b>Suggested Assessment</b>						
<b>Strand</b>	<b>Sub Strand</b>	<b>Indicator</b>	<b>Exceeding expectation</b>	<b>Meeting expectation</b>	<b>Approaching expectation</b>	<b>Below expectation</b>
Braille Writing Equipment and Materials	Assistive devices lessons	Ability to identify and use 6 assistive devices	Learner identifies and uses 5 to 6 identify assistive devices	Learner identifies and uses 3 to 4 assistive devices	Learner identifies and uses 2 assistive devices.	Learner identifies and uses 1 assistive device or none
Braille Reading Skills	Simple tactile maps and diagrams	Ability to identify, interpret, take good care and storage simple tactile maps and diagrams	Learner identifies, interprets, takes good care and stores simple tactile maps and diagrams	Learner does any 3 of identifying, interpreting, taking good care and storing simple tactile maps and diagrams	Learner does any 2 of identifying, interpreting, taking good care and storing simple tactile maps and diagrams	Learner does any 1 of identifying, interpreting, taking good care and storing simple tactile maps and diagrams  or none
	Tracing patterns	Ability to identify different tactile patterns	Learner identifies different tactile patterns and matches simple	Learner does any 2 of identifying different tactile patterns and	Learner does any 1 of identifying different tactile patterns and	Learner does none of identifying different tactile

		and match simple lines and shapes and forms tactile patterns,	lines and shapes and forms tactile patterns,	matching simple lines and shapes and forming tactile patterns,	matching simple lines and shapes and forming tactile patterns	patterns or matching simple lines or shapes or forming tactile patterns
Braille Writing Skills	Braille formatting	Ability to do 3 braille formatting activities (identify first line of a Braille paragraph, centre heading in a Braille text and indent braille text in a paragraph)	Learner does 3 braille formatting activities (identifies first line of a Braille paragraph, centres heading in a Braille text and indents braille text in a paragraph)	Learner does any two of the braille formatting activities (identifying first line of a Braille paragraph, centring heading in a Braille text and indenting braille text in a paragraph)	Learner does any 1 of the braille formatting activities (identifying first line of a Braille paragraph, centring heading in a Braille text and indenting braille text in a paragraph)	Learner does none of the braille formatting activities (identifying first line of a Braille paragraph, centring heading in a Braille text and indenting braille text in a paragraph)
English Braille Notation (22 lessons)	Upper group signs and word signs	Ability to identify, read and write 13 upper group signs and 6 word signs	Learners identifies, reads and writes 13 upper group signs and 6 word signs	Learner identifies, reads and writes 8 to 12 upper group signs and 4 to 5 word signs	Learner identifies, reads and writes 4 to 7 upper group signs and 2 to 3 word signs	Learner identifies, reads and writes 1 to 3 upper group signs and 1 word sign or none
English Braille Notation	Lower group signs.	Ability to identify the dots forming 4 lower group signs, read and	Learner identifies the dots forming 4 lower group signs, reads and	Learner identifies the dots forming 3 lower group signs, reads and	Learner identifies the dots forming 2 lower group signs, reads and	Learner identifies the dots forming 1 lower group signs, reads and

		write the lower group signs in sentences	writes the lower group signs in sentences.	writes the lower group signs in sentences	writes the lower group signs in sentences.	writes the lower group sign in sentences or none
English Braille Notation	Lower word signs.	Ability to identify the dots forming 13 lower word signs, read and write the lower word signs in sentences	Learners identifies the dots forming 13 lower word signs, reads and writes the lower word signs in sentences	Learners identifies the dots forming 8 to 12 lower word signs, reads and writes the lower word signs in sentences	Learners identifies the dots forming 4 to 7 lower word signs, reads and writes the lower word signs in sentences	Learners identifies the dots forming 1 to 3 lower word signs, reads and writes the lower word signs in sentences on none
Mathematics braille notations	Numbers in braille	Ability to say, read and write numbers 101 – 1000 in braille	Learner says, reads and writes numbers 101 – 1000 in braille	Learner says, reads and writes numbers 101 – 700 in braille	Learner says, reads and writes numbers 101 – 500 in braille	Learner says, reads and writes numbers 101 – 300 in braille
	Operation Signs	Ability to identify, read, and write the 4 basic operation signs in mathematics braille.	Learner identifies, reads, and writes the 4 basic operation signs in mathematics braille.	Learner identifies, reads, and writes the 3 basic operation signs in mathematics braille.	Learner identifies, reads, and writes the 2 basic operation signs in mathematics braille.	Learner identifies, reads, and writes the 1 basic operation signs in mathematics braille or none
	Simple fractions	Ability to identify, say, read and write 3 simple fractions in braille	Learners identifies, says, reads and writes 3 simple fractions in braille.	Learners identifies, says, reads and writes 2 simple fractions in braille	Learners identifies, says, reads and writes 1 simple fractions in braille.	Learners identifies, says, reads and writes noneof the simple fractions in braille..

Breli ya Kiswahili	Maneno yanayosimamiwa na mikato ya seli moja	Kuweza kutambua na kusoma kwa ufasaha maneno yanayosimamiwa na mikato ya seli moja katika. Sentensi	Anatambua na kusoma kwa ufasaha maneno 9 hadi 11 yanayosimamiwa na mikato ya seli moja katika. Sentensi	Anatambua na kusoma kwa ufasaha maneno 6 hadi 8 yanayosimamiwa na mikato ya seli moja katika. Sentensi	Anatambua na kusoma kwa ufasaha maneno 3 hadi 5 yanayosimamiwa na mikato ya seli moja katika. Sentensi	Anatambua na kusoma kwa ufasaha neno 1 hadi 2 maneno yanayosimamiwa na mikato ya seli moja katika. Sentensi

## **CSL at Early Years Education (PP1&2 and Grade 1-3)**

At this level, the goal of the CSL activity is to provide linkages between concepts learnt in the various Learning Activities and the real life experiences. Learners with blindness begin to make connections between what they learn and the relevance to their daily life. CSL is hosted in the Environmental Activities learning area. The class teacher is expected to identify and guide learners to undertake age-appropriate whole-class integrated CSL activity within the school. The safety of the learners should also be taken into account when selecting the CSL activity. The following steps for the integrated CSL activity should be staggered across the school terms:

### **Steps in carrying out the integrated CSL activity**

#### **1) Preparation**

- Determine the activity for the learners
- Map out the targeted core competencies, values and specific learning areas skills for the CSL activity
- Identify resources required for the activity (locally available materials)
- Stagger the activities across the term (Set dates and time for the activities)
- Communicate to learners, parents/caregivers/guardians, school administration, teachers and other relevant stakeholders in the school community

- Identify and develop assessment tools

#### **2) Implementation of CSL Activity**

- Assigning roles to learners.
- Ensure every learner actively participates in the activity
- Observe learners as they carry out the CSL activity and record feedback.
- Use an appropriate assessment tool to assess both the process and the product (Assess learner's work from the beginning to the end product)
- Assess the targeted core competencies, values and subject skills.

### 3) Reflection on the CSL Activity

Conduct a self-evaluation session with learners on the integrated CSL activity undertaken by discussing the following:

- what went well and why
- what did not go well and why,
- what can be done differently next time,
- what they have learnt.

There will be one integrated CSL activity that will be conducted annually. The thematic areas for the integrated CSL activity will be derived from the broader categories of the PCIs and concepts from the various Learning Areas. The teachers are expected to vary the themes yearly to allow learners to address different PCIs within their contexts. There should be a linkage between the skills from the learning areas and the themes.

The integrated CSL activity will take a Whole School Approach (WSA) where the entire school community is involved (learners, parents/caregivers/guardians, school administration, teachers). Parents/caregivers/guardians are key stakeholders in the planning and execution of the CSL activity. Although the teacher takes the lead role in the planning and integration of the CSL activity, learners will be expected to participate actively in the whole process.

The CSL activity provides an opportunity for the development of core competencies and the nurturing of various values. The teacher is expected to vary the core competencies and values emphasised in the activity yearly.

### Assessment of the CSL Activity

Assessment of the integrated CSL activity will focus on 3 components namely: skills from various learning areas applied in carrying out the activity, and core competencies developed and values nurtured. Assessment should focus on both the process and end product of the CSL activity. The teacher will assess learners in groups using various tools such as an observation schedule, checklist, rating scale any other appropriate assessment tool.

### Suggested Learning Resources

<b>Non-digital</b>	<b>Digital</b>
